

AI Content Marketing Using UGC Ads

REPO: FUTURE_PE_02

Project Overview | QuizMaster Pro — Online Quiz & Assessment Platform

BUSINESS

QuizMaster Pro

PLATFORM

Coaching Centers

TOOLS

ChatGPT · Prompt Eng · GitHub

FOCUS

UGC Ad Campaigns

OBJECTIVE Build a reusable AI-powered prompt system that generates high-converting UGC advertisements.

Deliverables

Structured Prompts

- Master Prompt
- Hook Generator Prompt
- UGC Script Prompt
- Caption Prompt
- Testimonial Prompt

Generated Outputs

- UGC Hooks & Ad Scripts
- CTAs & Instagram Captions
- Customer Testimonials
- Platform Adaptations
- Campaign Strategy

Target Audience

- Coaching Center Owners
- Educational Institutions
- Faculty Members
- Students

Tools Used

ChatGPT

Prompt Engineering

GitHub

Content Platforms

Instagram Reels

Short-form UGC video ads with hooks, storytelling & CTA

YouTube Shorts

60-sec educational/testimonial style ad scripts

Facebook Ads

Conversion-focused carousel & video ad copy

LinkedIn

B2B messaging targeting institutions & educators

Key Features

- ★ **Authentic UGC Style**
Real-person storytelling, not brand speak
- ★ **Conversion-Focused**
Every script ends with a strong CTA
- ★ **Platform-Specific**
Content tailored per channel format
- ★ **Reusable Framework**
Prompt system works for any similar business
- ★ **Real Business Case**
Built on QuizMaster Pro — a live product

Learning Outcomes

- 01 Prompt Engineering
- 02 Content Marketing Strategy
- 03 UGC Ad Script Creation
- 04 AI-Assisted Copywriting
- 05 Multi-Platform Campaigns

This project demonstrates how AI can help businesses create **scalable, authentic, and high-performing marketing content** using structured prompt systems — combining the power of ChatGPT with proven UGC ad frameworks for real-world impact.
